

A Simple Truth

THE WAY THAT LEADS TO LIFE

LET THERE BE LIGHT

In the beginning, there was Elohim: the Father, Son, and Holy Spirit working together in unity, each knowing and fulfilling their responsibility as God – three complete functions of one being. In complete harmony they created – forming, shaping, and establishing that which had not existed before – bringing into existence substances formed out of that which is Eternal. God is the same, yesterday, today and forever. Before anything was created – He was and still is, forevermore. All things were created through Him and for Him.

But something happened. After earth was created the Holy Scriptures state the earth was “formless and void.” Void in this context means “an emptiness that shows lack of order.” Being formless also means emptiness, a state of empty space and nothingness, not having shape. In other words, the earth was without order and was being empty of its purpose to produce according to how it was created to function. Therefore, it was barren and unable to produce – for God creates everything to produce according to its purpose.

Before God could restore, making and calling into place everything that was to exist according to purpose, He said, “Let there be light”; and there was light. For in the Light there is Life! Outside of the light of life lies barrenness and emptiness. Another word synonymous with emptiness and lack of order is “vanity.” We are subject to vanity because of our disobedience to God’s specific commands. Apart from the light of truth our existence is meaningless.

Jesus is the light that has come in the midst of darkness and those who have received the light becomes the light of the world. Just as God called for light in the beginning where there was darkness, the same light of Christ comes to those of us who sit in darkness to guide our feet into the way of peace and wholeness. His light is our life.

What areas in your life have not been brought into the light so God can recreate and restore? To be restored we must let the light of Christ fully overcome any and every area of darkness that still remains in our lives.
